

# OUR VISION

- The sustainable development of our fisheries through responsible management of our resources.
- The promotion of our profession and know how.
- Help the development of our sector through optimisation of benefits and raise standards in the fishing sector.
- Promote quality training for our young fishermen, seamen, and skippers.
- Ensure benefits, job and fish for generations to come.

Together we care  
for a sustainable fishing

# FBOA

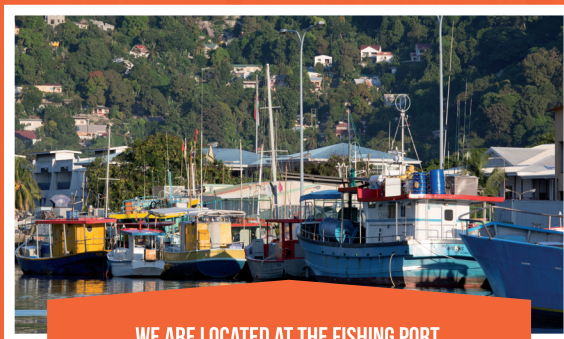

*A non-gouvernemental  
organization*

The FBOA is a non-governmental registered organization working with the Seychelles artisanal and semi-industrial fisheries sector. Our members are boat owners and fishermen operating in the domestic fisheries of Seychelles.

The office of the FBOA is a meeting place. The association is one of the oldest organisation representing and safeguarding the interests of the fishermen in our domestic fisheries sector.

## *Location*

WE ARE LOCATED AT THE FISHING PORT,  
VICTORIA, MAHE.

ORIGIN, QUALITY, TRACEABILITY AND

SUSTAINABILITY, SOCIO RESPONSABILITY

## PRINCIPAL OBJECTS OF THE ASSOCIATION

- To represent, defend, protect and promote the rights, interests and welfare of all its members (...)
- To support, associate or affiliate with other organisations, local, regional or international.
- To provide social, moral education and general development education for its members.
- To organise, promote and develop industrial relations awareness (...).
- To liaise with the government bodies in the management of the marine and fish resources in Seychelles (...).
- To intervene & request assistance for boat owners or members of their family in times of need & despair (...).

## *Working bodies*

We work in close collaboration with the fishery public institution : SFA. We also collaborate with other bodies such as SBS, Environment, private sectors, NGO's and International organisations.

We have an Executive Committee which comprise of a Chairman, Treasurer, Secretary and 5 Executive members.

## *Project and on-going project*

- Label Project Phase I & II : The aim is to promote sustainable fishing, add value to the harvest and create a direct link with consumers. This initiative is designed to value add the quality of our work, our harvest and our resources, thus enabling our fishermen to obtain a better return with the same fishing effort.
- On going work to present project to improve sustainability of artisanal/domestic fishing.
- On going work on security aspect for fishermen related to piracy...
- Fboa participate on ongoing process for management plan, fisheries policy....
- Daily support to all fishermen, boat owners .
